Wildlife Boxes

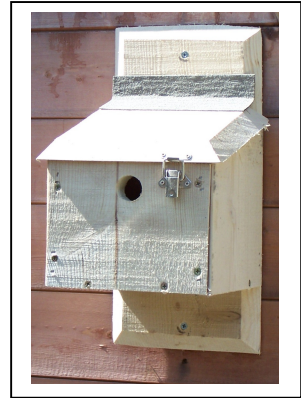

Bat Box

Dormouse Box

Robin Box

Tit/ Sparrow Box

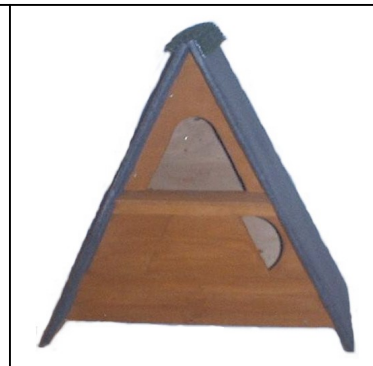

These boxes are made of untreated soft wood with no preservatives, the lids are removable on all but the Robin Nest box which has easy access, this allows for any cleaning needed and for inspection. The front and back inside surfaces of the Bat box are grooved allowing the bats to climb and roost. The Dormouse box has an entrance hole at the back of the box and comes with plastic ties so it can be fitted to a tree. The Blue Tit Nest box comes with a 25mm entrance hole and the Sparrow, Great Tit box comes with a 32mm hole.

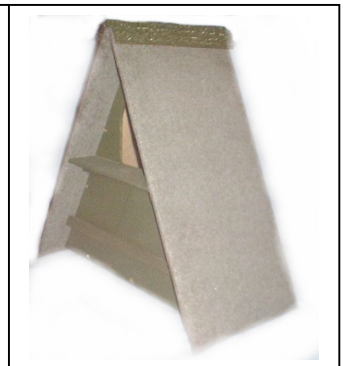

6 Hole Dove Cote

3 Hole Dove Cote

Brown Kestrel

Green Kestrel

The Dove Cote comes in 2 different designs 1 with 3 large holes for Fantail doves and birds of that size and the 6 holed Dove Cote is suitable for Barbary and other small doves. The exterior is varnished and brass screws are used for fixing. Feeder is not included.

The Kestrel box has a large opening at the top of the front for the birds to enter the box and at the bottom a sliding door covering a inspection hole which can be used to clean the box.

Both boxes are 610mm high by 610mm wide by 250mm deep, with felted roofs and an astro turf perch on the apex.

Hedgehog Nest Box

The Hedgehog box is made of soft wood it is treated with water based wood preservative, which is harmless to the hedgehog. There is no floor as this allows access to the ground below. It is 460mm square and 230mm high; the opening is 125 x 110mm.

A wooden bracket and fixing instructions come with all boxes along with information sheet about the Owl and sighting of the box
